Uto, sospensione

by Lagranja Design

FOSCARINI

DESCRIPTION

Table, floor and suspension lamp with diffused and direct light. Cone-shaped diffuser and tube made of thermoplastic elastomer, the cone is injection moulded and the tube is extruded. Internal opaline polycarbonate cone-shaped diffuser, translucent polycarbonate screen. The luminaire is suitable for damp location; the box includes a plug to adapt it to an indoor lamp as well as instructions on how to shorten the tube. The on/off switch is fitted inside the tube at the tip of the diffuser cone.

technical details

FOSCARINI

Uto is a transformist, fun, pleasant to look at and to touch, thanks to the softness of its material. Uto changes according to the needs of the moment. It can be used as a floor or table lamp, hung from the wall or the ceiling, set in the living room or in the garden. Uto is a fully flexible model and it is available in white, yellow and orange. Reassuring and familiar despite its innovative design, Uto is ideal wherever one wants to add a lighting element with a playful and chameleonlike personality.

LAGRANJA DESIGN

Lagranja – design for companies and friends – is an international multi-disciplinary design studio in charge of interiors, outfitting and product design.

Founded by Gerard Sanmartí and Gabriele Schiavon, it is also active in education and research. In Uto, the studio created together with Foscarini a new type of illuminating object, a soft, high-tech and flexible item in both its use and its setting.
